

Kase Axis

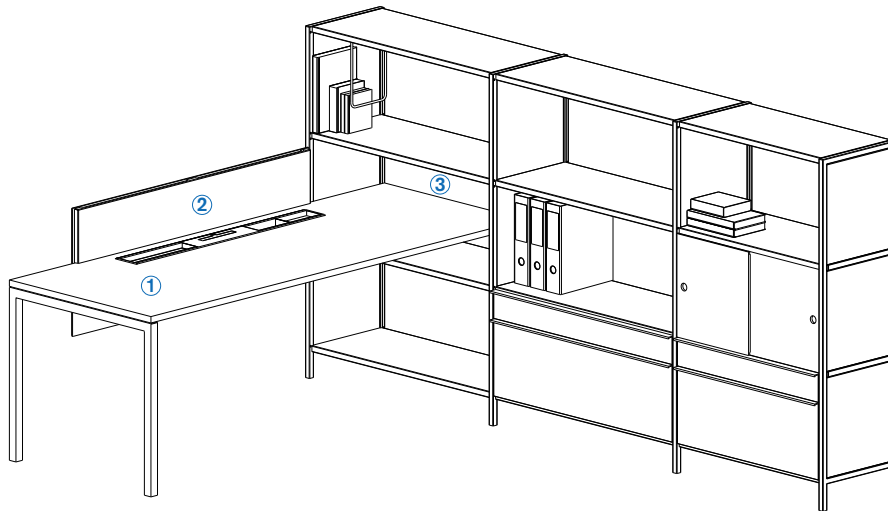

MADE HERE.

IMO

Introduction

Kase Axis integrates your work surface and storage needs, providing an efficient solution for both collaborative and individual workspaces. There are an unlimited number of configurations that can be built to support all work types without the need for walls or screens. Power and data can be truncated throughout the system.

Configure your storage modules to any length and height as detailed in the Kase Storage brochure. Then connect your work surface anywhere along the spine.

Desk Sizes

Length: 1600 / 1800 / 2000 / 2200mm
